

SSRS Server Pages

This is a bunch of rolling notes for SSRS.

Web Portal URL

The standard Web portal UI is here: <https://hostname/Reports>

Use this link to browse, manage, and view reports with the standard web interface.

Report Server URL

The Report Server is available here: <https://hostname/ReportServer>

Use this link to access the report server's backend, or in applications like Report Builder for deploying and managing reports.

Reporting Services Configuration Manager

This is a Windows executable, that provides high-level configuration for the report server.

It can be found in the Start menu, as *Reporting Services Configuration Manager*.

URL Reservations

Once configured in RSCM, URL reservations are stored in the RSReportServer.config file.

It is available here: "c:\Program Files\Microsoft SQL Server Reporting Services\SSRS\ReportServer\RSReportServer.config".
